# ACETOFOR

## Powerful Acidifier—Biofilm Control for Water Pipes

Thanks to its strong acidifying power, Acetofor brings water intended for animals back to a suitable pH zone for maximum production outcome as well as to prevent biofilms.

### INGREDIENTS

A combination of organic and inorganic acids and algaecides

**Density** : 1 205 gr/litre

### INSTRUCTIONS FOR USE

#### POULTRY

- 150 to 300 ml/1000 L water according to desired pH

Chicken farming, recommended pH: 4.2

In all cases, the dose will be adjusted to the target pH to account for the difference in water quality from one farm to another.

### APPLICATION

With a metering pump .

### SAFETY PRECAUTION

- Keep out of the reach of children
- In case of contact with skin or eyes, rinse thoroughly with plenty of water.
